

NEW  
*Wollensak Raptar Lenses*  
A COMPLETE SERIES DESIGNED TO  
GIVE GREATER RESOLVING POWER

Raptar 

for all types of still cameras

Raptar 

for all makes of enlargers

Raptar 

for all makes of ciné cameras

HERE they are. The new Raptar lenses with anti-reflection coating, WOCOTE, to give your pictures the ultimate sharpness, contrast and detail. Gone are the bug-a-boos, "flare" and "ghost images." More unreflected light is transmitted to allow clear detail in shadow areas . . . to produce

pure, natural color values. Add the finer resolution and established uniformity of these new lens and you have the reason why leading American camera and enlarger manufacturers choose Raptars for their equipment. Improve your photography with Raptar lenses.

*Wollensak*
